Current Activities

- Residency Ad Hoc
 - Draft II of CPME 320 and 330 will go to Council in April
 - If approved, documents will go out to the community of interest
- Blue Ribbon Panel for Milestone Education in Podiatric Medicine and Surgery Residencies
 - The panel met in December 2021
 - Follow-up meeting occurred in February
 - The work the panel will be submitted to the Council in April
- Fellowship Ad Hoc
 - The Committee met in January 2021
 - An in-person meeting is planned for Spring to continue its work

7

Recent Policies Approved by Council

- Programs that are undergoing an on-site evaluation will no longer have to provide PDF versions of resident logs to CPME. The RRC will review logs online, rather than asking programs to submit copies of resident logs.
- When an institution accepts multiple residents from a program that is closing, CPME will continue to require the institution submit the CPME 345, Application for Increase in Positions, and the corresponding fee. Programs will need to follow the procedure for resident transfer for all residents entering the program; however, the transfer fee will only be assessed for a single resident.
