

1 Coding and Billing for the Foot and Ankle Surgeon

Wednesday, March 21, 2018

7:30 am – 5:30 pm

8 Continuing Education Contact Hours

Join us for an interactive and comprehensive workshop that will cover pertinent issues related to properly coding surgical procedures. Previous attendees of the ACFAS workshop, Coding and Billing for the Foot and Ankle Surgeon, now code more efficiently and effectively and have seen increased reimbursement. By learning how to code just one or two procedures properly, you will cover the cost of this course and see an immediate return on investment in your own practice.

“The billing and coding seminar was one of the best courses I’ve attended. It taught me the appropriate use of modifiers and helped me really to understand the key components necessary to bill office visits at different levels. It also taught me how to maximize my surgical billing.” – Danielle Butto, DPM, AACFAS
