

# 1 Coding and Billing for the Foot and Ankle Surgeon

**Wednesday, February 13, 2019**

**7:30 am – 5:30 pm**

## **8 Continuing Education Contact Hours**

Join us for an interactive and comprehensive workshop that will cover pertinent issues related to properly coding surgical procedures and evaluation and management services. Previous attendees of the ACFAS workshop, Coding and Billing for the Foot and Ankle Surgeon, now code more efficiently and effectively and have seen increased reimbursement. By learning how to code just one or two procedures properly, you will cover the cost of this course and see an immediate return on investment in your own practice.

“The billing and coding seminar was one of the best courses I’ve attended. It taught me the appropriate use of modifiers and helped me really to understand the key components necessary to bill office visits at different levels. It also taught me how to maximize my surgical billing.” — Danielle Butto, DPM, AACFAS

“Beneficial at all levels of practice and I highly recommend repeating the course as your practice grows & changes to truly get paid for the work you do. I recommend this for residents to veteran physicians/surgeons.”  
— Antonia L. McClune, DPM, AACFAS

“This seminar is worth tens of thousands of dollars to one’s practice.” — Brian A. McDowell, DPM, FACFAS
