Platform Statement:

I am deeply honored to be considered for a position on the Board of Directors of the American College of Foot & Ankle Surgeons (ACFAS). For over 15 years, I have volunteered for multiple committees and been Chairman of the Consumer Education Committee for three years and Chairman of the Education & Scientific Affairs Committee for two years. My extensive volunteer history provides a distinctive viewpoint and has readied me to advance my leadership role within ACFAS. I have witnessed our organization's growth and the elevation of foot and ankle surgeons throughout the years. My unwavering commitment to the College, substantial service, and leadership have prepared me to become a member of the Board of Directors.

My vision for the future of ACFAS is centered on the commitment to elevate our standing within the medical community, lead the field in education for foot and ankle surgery, and advance research with the ACFAS Registry and the Journal of Foot & Ankle Surgery.

In pursuit of the vision, I propose the following key priorities:

1. **Promote Research and the ACFAS Registry:** ACFAS will continue to invest in innovative research and foster collaboration between members and leading institutions. The ACFAS Registry will promote quality improvement and research in foot and ankle surgery. By continuously pushing the boundaries of knowledge in foot and ankle surgery, we will advance patient care and outcomes and cement our reputation as pioneers and leaders in foot and ankle surgery.
2. **Comprehensive Educational Resources:** ACFAS will continue to expand our educational offerings to encompass a comprehensive range of resources, catering to the members of ACFAS at every stage of their careers. This includes the Annual Scientific Conference, interactive virtual courses and symposiums, hands-on surgical workshops, and mentorship programs.
3. **Advocacy and Public Awareness:** ACFAS will work to increase public awareness of the crucial role that foot and ankle surgeons play in enhancing patients' quality of life and improving medical outcomes. By doing so, we can ensure that our surgeons receive the recognition and support they deserve.
4. **Diversity and Inclusion:** ACFAS is committed to fostering an inclusive community within the College. Encouraging participation from individuals of all backgrounds and experiences will enrich ACFAS and better serve our members and patients.

I am excited for the future of foot and ankle surgery, with ACFAS leading the way. I believe that ACFAS will maintain our position as foot and ankle surgery leaders and take significant strides for our members. Together, we can shape the future of foot and ankle surgery, ensuring the highest standards in patient care, education, and professional excellence. I am grateful for the years I have committed to ACFAS through my volunteer service, and it would be a privilege to serve on the Board of Directors.
